

Muhammad Saleem

Full Stack Developer

A skilled Full Stack Developer with extensive experience in Next.js, TypeScript, Tailwind CSS, and Supabase. I specialize in creating scalable, high-performance web applications with a strong emphasis on user experience and modern web technologies. I have a proven track record of delivering creative and effective solutions across both front-end and back-end systems and excel at collaborating effectively in dynamic team environments.

ACHIEVEMENTS

Open Source Contributor, Supabase

Successfully resolved a critical bug in the Supabase codebase, improving system stability and performance. Engaged with the community to ensure seamless integration of the fix.

Aptech Vision Winner

There is competition in Aptech in which all institutes of Karachi participate and I am winner of Aptech North Nazimabad Campus.

Hackathon 2023

Participating in a recent cybersecurity hackathon was an exciting journey where I leveraged my expertise to address intricate challenges employing my expertise to devise innovative solutions and enhance the security posture of digital systems.

TECHWIZ Global Competition

Participating in the TECHWIZ global tech competition at Aptech was an invigorating journey where I showcased my skills as a front-end developer. Three-Day Intensity: The event spanned three dynamic days, during which I engaged in a series of challenges that tested my technical acumen and ability to deliver results within tight deadlines.
